**Committee Chair Assignments to Drive San Diego Forward**

**San Diego** — Just two days ago at inauguration, I said that I am ready to work with my City Council colleagues to ensure that every San Diegan in every neighborhood has the opportunity to enjoy what our great city has to offer. As such, I am pleased that Councilmembers Sean Elo-Rivera, Monica Montgomery-Steppe, and Vivian Moreno will chair significant council committees. They have pledged to tackle inequities within San Diego and act on behalf of our historically under-resourced communities. They will drive needed conversations into the open, spur progress, and change our city for the better. As vice chair of the Audit Committee and Active Transportation and Infrastructure Committee, I too pledge to do my part to advance an agenda of solutions, transparency, and equity.

So too with the other assignments, I am optimistic about the leadership my colleagues will bring to their respective committees. Our city has no shortage of challenges, and I have confidence that we have selected the right representatives to address them .

I look forward to working with Council President Campbell and all my council colleagues. I am excited about the advancements to come.
